

Pre Retirement Program: Retire Happy, Healthy And Wealthy

Introduction

Retirement is a new world for employees either from government or private sectors who have reached the golden age. In this world of retirement, employees need a lot of mental and emotional preparation as they will move into a different but still possibly challenging environment. The pre-retirement preparation program is a comprehensive approach to provide motivation and information on the areas of the course that can be followed in the interests and planning of future retirees.

This two-day program will open the minds of future retirees to tackle physical and mental preparation, as well as identifying career and opportunities in business or environment. In addition to helping with future planning, this program aims to guide future retirees to a healthier and more organized lifestyle after retirement. With increasing age factors, good health care as well as financial planning need to be introduced to future retirees and to be taken into serious account. The entire program will be shared by retiree are focused on SPICES + F (Spiritual, Physical, Intellectual, Career, Emotion, Social + Finance)

Program objectives:

At the end of this program, participants will be exposed and equipped with the following:

- Preparation in terms of IQ and EQ (life and financial)
- Family life in a different atmosphere after retirement
- The planning of leisure activities
- The construction and importance of networking among friends / relatives and close relationships among retirees.
- Physical and mental health care
- Knowledge of financial management for use after retirement.
- Entrepreneurship and the inside-outs of business that can provide information for retirees to decide whether to venture into business.
- Guide to future retirees in the realm of retirement and emotional and psychological adjustment to the golden age
- Strengthening information on pension schemes and their benefits to themselves and their beneficiaries

Learning outcomes

Upon completion of this program, participants should be able to:

- Have the awareness and knowledge to make a good retirement plan
- Use behavioural and cognitive strategy approaches to help change for a happy retirement life
- Identify key focus areas for success and potential obstacles

Who should attend?

All levels of future retirees

Delivery Techniques

Discussion, case-sharing, simulation & presentation of individuals and groups

This training program will be conducted through lectures and practical exercises that participants will perform on their own with the help of facilitators. All subjects discussed will be discussed and deliberated in detail, with the aim of providing them with personal insights and experiences as well as current case studies
